

# NEW PROPERZI CCW SYSTEM

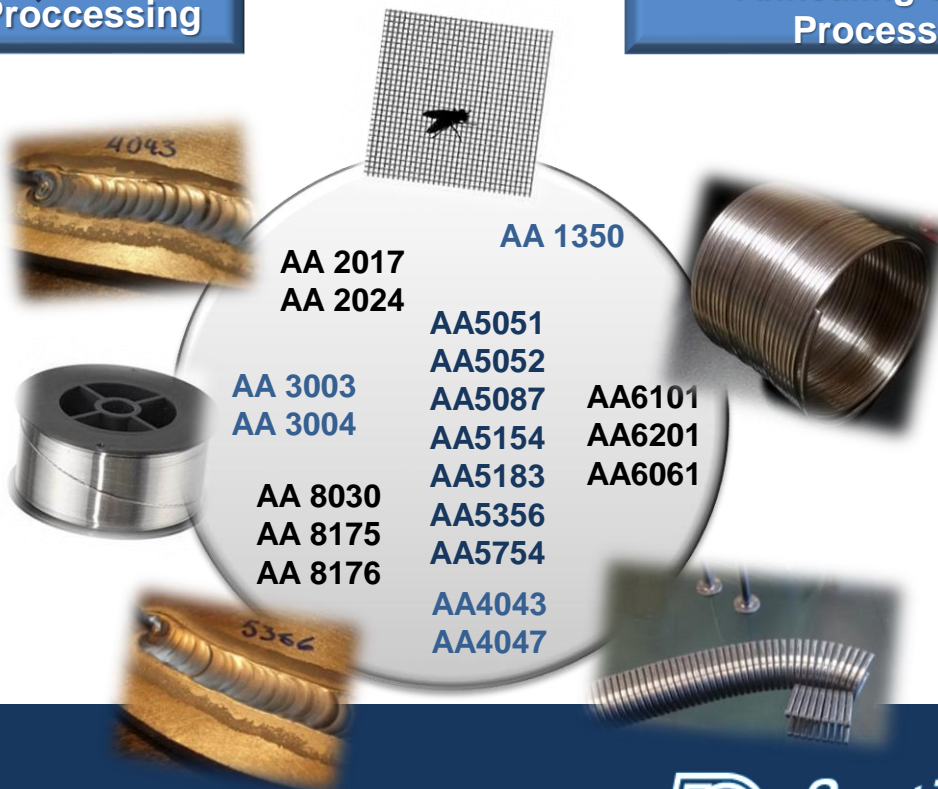

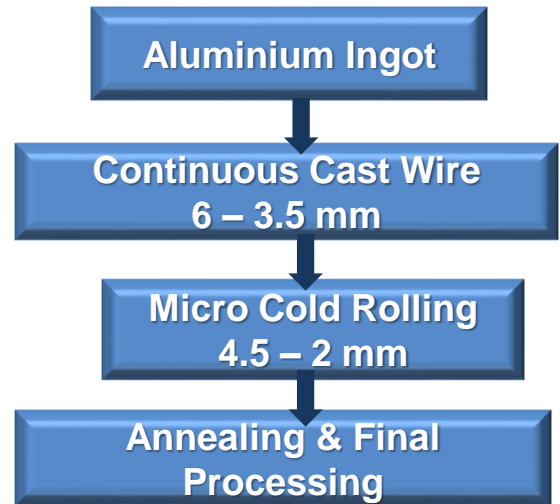

*...Advanced Aluminium Alloy Wire Directly from Liquid Metal...*

**Most Difficult Aluminium Alloys Successfully in Production  
with  
The Latest Properzi Continuous Cast Wire + Cold Rolling**

## TRADITIONAL

## PROPERZI CCW + CR

# Proven Technology for High-Tech Welding & Mechanical Alloys...

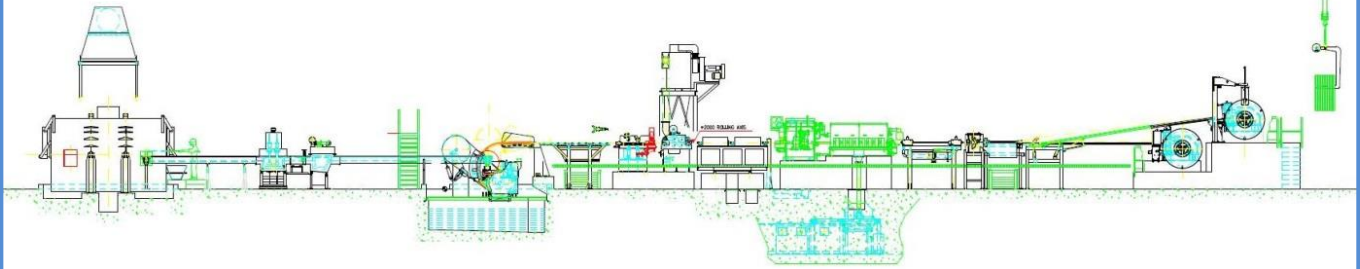

## MANY ADVANTAGES:

- ✓ The final diameters range is from 6.25 mm to 3.2 mm
- ✓ No annealing required
- ✓ Easy tensile strength adjustment
- ✓ No breakdown drawing required
- ✓ Wide range of mechanical and welding alloys
- ✓ Choice of loose or compact coils

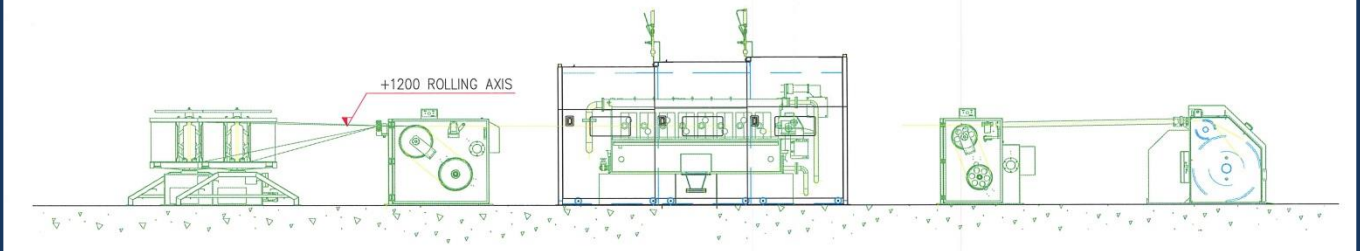

**Complete Lines from Al ingots to final products**  
**5,000 – 10,000 mt/year**

*CCW Line*

*Micro Cold Rolling*

**Final Steps to commercial products**
